Casey, I know the attached is not what you meant, but it embodies many of my major concerns for Arkwood and would be a useful read for you, I believe.

As you see, this document (with attached cover form) was submitted formally to EPA and ADEQ prior to the deadline I was given and well in advance of the issuance of the Third Five-Year Site Review.

However, the Remedial Project Manager Shawn Ghose did not address my concerns in the final version of the review, issued many months later, nearly half a year past the statutory deadline for the review's completion.

Mr. Ghose's one reference to my formal input in the review is very brief and mischaracterizes my statements. That is just one of myriad flaws, errors and mischaracterizations in the final version of the Third Five-Year Review for Arkwood.

Mr. Ghose continues to ignore issues of future anticipated use of the site, as he has done from the beginning of his involvement with this project. I believe that lapse is contrary to EPA's stated policy for land revitalization, including Mr. Woolford's own directives, guidance and memoranda on the subject.

I am still working on a draft agenda that is a (hopefully) manageable set of talking points.

Thank you,

Curt

Subject: Charles Curtis Grisham, Jr. Formal Comments on Draft Third Five-Year Review for Arkwood, Inc. Superfund Site

Thursday, April 28, 2011 08:45

Dear Carlos,

As discussed, I am delivering my formal comments and concerns regarding the Draft

Third Five-Year Review for the Arkwood, Inc. Superfund Site.

You told me on the telephone Monday that if I had these to you before the end of this week they would be taken into consideration for the final version of the Third Five-Year Review for the Arkwood, Inc. Site

Please acknowledge your receipt of this communication and its two attachments totaling fourteen pages (14pp.) not including this email message.

Thank you.

Sincerely,

Curt Grisham
